AME Grand Rounds:
Evidence-Based Assessment: Envisioning the Future

Miguel A. Paniagua, MD, FACP, FCPP, MHPE (cand.)
Friday, May 12, 2017, 8-9am
Anschutz Medical Campus: Nighthorse Campbell, Shore Family Auditorium

By the end of the rounds the participant will:

- Determine the role of innovations and limitations of assessment modalities
- Discuss methods to improve education and assessment in diverse settings
- Question the evolution of assessment of non-traditional competencies
  - Use of clinical decision making tools during an examination
  - Systems-based practice
  - Assessment of communication skills
  - Professionalism

Miguel A. Paniagua, MD, FACP, received his undergraduate degree from Saint Louis University before earning his MD at the University of Illinois College of Medicine, Chicago, where he also is completing his Masters of Health Professions Education (MHPE). Dr. Paniagua completed his internal medicine residency and gerontology & geriatric medicine fellowship at the University of Washington, Seattle. After four years on the faculty at the Miller School of Medicine at the University of Miami, he then served as the internal medicine residency program director at Saint Louis University School of Medicine for five years prior to joining the staff of the National Board of Medical Examiners. In addition to multiple teaching awards while a faculty member, Miguel is a forum member representative to the Institute of Medicine (IOM) Global Forum on Innovations in Health Professions Education, The ACGME’s National Collaborative to Improve the Clinical Learning Environment (NCICLE) and a member of the Alpha Omega Alpha medical honor society. He is a fellow of the American College of Physicians and the College of Physicians of Philadelphia.

Miguel currently serves as Medical Advisor for Test Development Services at the National Board of Medical Examiners (NBME). His work at NBME includes the development of assessments of procedural skills, communication skills, interprofessional team work and other innovations in the computer-based examinations. Dr. Paniagua has served on multiple item writing and reviewing committees at the NBME over the last decade, and has served as a representative member of the National Board of Medical Examiners governance from 2011 to 2014 and on the Executive Board of the NBME from 2013 to 2014.
