Nighthorse Campbell, Room 103

Please register today:  https://som.ucdenver.edu/Events

BRIEF OVERVIEW
Let’s explore the topics of accessibility, inclusive design and universal design; looking at how the implementation of these important design strategies for teaching and learning techniques can empower people of all abilities.

WHO WILL BENEFIT
All faculty teaching online or face-to-face

WHAT YOU WILL LEARN
- Identify what accessibility, universal design and inclusive design mean in the teaching context.
- Define how to use these design techniques in their course.
- Reflect on lessons learned during the training session, and look to identify ways to implement and assess accessibility and Universal Design for Learning within the Academy of Medical Educators.
