Community/Volunteer Service

Juvenile Arson Program
1997 – 2003

Sponsored by the Castlewood Fire Department and Littleton, CO Police Department on a monthly basis. Teenagers convicted of arson are referred to the program by the court system. This is an educational program, which includes information on what is arson, the legal implications of arson and the consequences of being a potential burn victim. My portion of the program involves a one-hour lecture and slide presentation on what it means to be a burn patient. Without this program, juveniles with their first time arson conviction would otherwise go to jail.
